

MartletsCare

“ Working as a qualified, professional Carer for Martlets Care means I’m trained, supported, equipped and ready to make my clients’ days better and brighter, one day at a time.

Make a real difference.

Make a career out of caring.

Do you feel a passion to care for others? Are you looking for a flexible and fulfilling job? Join our award-winning team and make a real difference in our local community.

Martlets Care provides personal care, companionship and help with daily living to adults with various medical and mobility conditions in their own homes. Plus, as we are a social enterprise business, all our profits go to Martlets Hospice.

Every one of our team members is highly-valued and our employee retention rates are far above the industry norm and many of our carers have with us since we began in 2007. We offer generous benefits and pay that's in line with local living wage and above, and we reward our team members for value based achievements.

We provide some of the best training in the home care sector, and we also pay for time spent training. If you have a calling to care for others, we'd love to hear from you. We seek both experienced and inexperienced carers – no experience is necessary. Full training is provided.
